Ideation Phase
Empathize & Discover

Date	31 January 2025
Team ID	LTVIP2026TMIDS54144
Project Name	ShopSmart – Digital Grocery Web Application
Maximum Marks	4 Marks

Empathy Map Canvas:

An empathy map is a simple, easy-to-digest visual that captures knowledge about a user's behaviours and attitudes.

It is a useful tool to helps teams better understand their users.
Creating an effective solution requires understanding the true problem and the person who is experiencing it. The exercise of creating the map helps participants consider things from the user's perspective along with his or her goals and challenges.

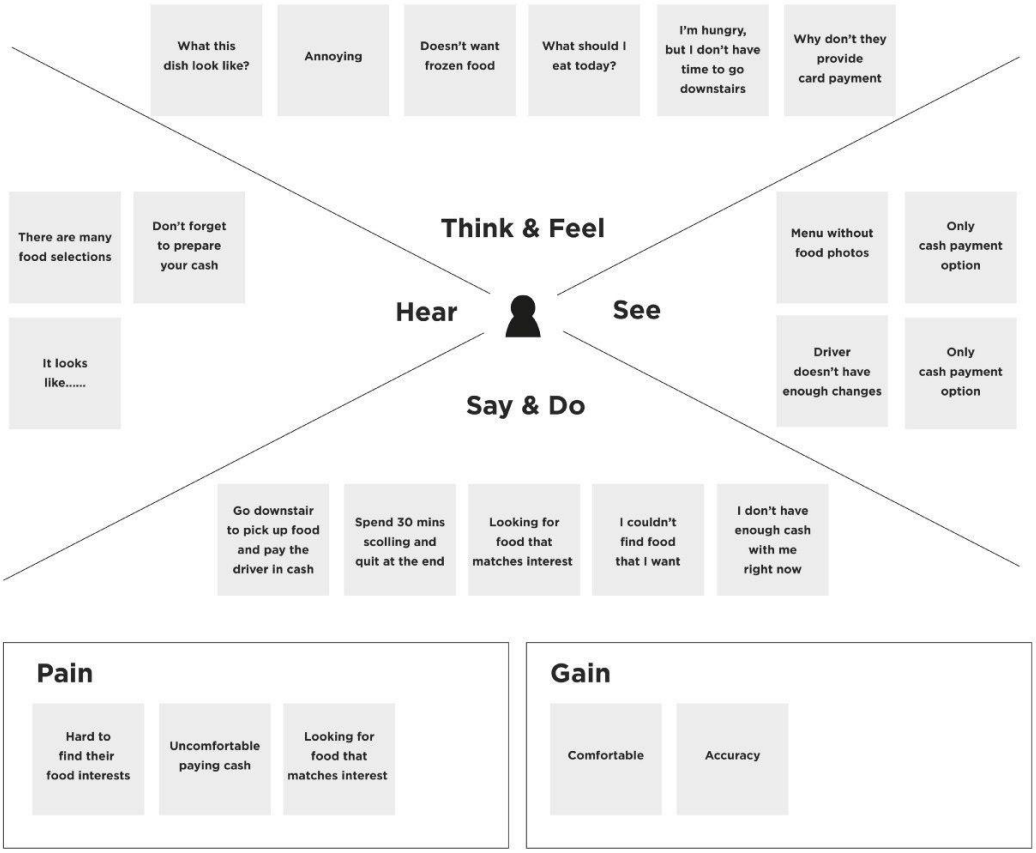
Example: Food Ordering & Delivery Application



1. What the User THINKS

- Wants convenience
- Wants fast delivery
- Worried about product freshness
- Wants secure payments

2. What the User FEELS

- Frustrated by long queues
- Concerned about pricing
- Excited about offers and discounts
- Wants reliability

3. What the User SAYS

- "I don't have time to go to the store."
- "I want everything delivered at my doorstep."

- “Is my payment secure?”

4. What the User DOES

- Searches for products online
- Compares prices
- Checks reviews
- Adds items to cart

5. Pains

- Delayed delivery
- Out-of-stock items
- Complicated checkout process

6. Gains

- Easy ordering
- Quick checkout
- Discounts & offers
- Order tracking
